

# Flexo Plate Cutter

The safer, faster and more accurate way to cut flexographic plates

Keencut product information page:  
<https://www.keencut.com/product/flexo-plate-cutter/>

## Why do I need a Keencut Flexo Plate Cutter?

- Flexo plates cost over \$100 USD and inaccurate cuts render them useless.
- Poor cutting leads to printing failures which halt production and add to costs.
- Hand-cutting flexo plates requires a more expensive skilled operator.
- Hand-cutting flexo is dangerous, adding to your health & safety risks and responsibilities as an employer.

## Quick Summary of the key benefits of the Keencut Flexo Plate Cutter

Accuracy	<ul style="list-style-type: none"> <li>- Precision accuracy produces seamless splices and eliminates costly mistakes.</li> <li>- Innovative dual cutting head provides a perfectly bevelled 5° undercut for seamless “no gap” plate joins when plate is mounted to plate cylinder.</li> <li>- You cut on the flat, so no mistakes cutting on the round.</li> </ul>
Easy to use	<ul style="list-style-type: none"> <li>- Intuitive to use with little training and practice. You do not need a skilled, highly trained operator.</li> <li>- Any operator can accurately cut any plate totally square and reduce waste and downtime.</li> </ul>
Safety	<ul style="list-style-type: none"> <li>- Stops the requirement for hand cutting with a knife.</li> <li>- Safe fast blade changing for different depth materials.</li> </ul>
Fast	<ul style="list-style-type: none"> <li>- Faster, more accurate cutting process increases production and removes waste.</li> <li>- Perfect seamless splices are made every time, in record time.</li> </ul>
Cuts	<ul style="list-style-type: none"> <li>- Designed specifically to cut flexographic plates.</li> <li>- Also capable of cutting: floor graphics, vinyl, rubber matting, corrugated cardboard, foam centred board.</li> </ul>
Competition	<ul style="list-style-type: none"> <li>- There is no competitive product other than cutting both raw and processed plate using a straight edge and hand knife.</li> </ul>
Zero waste	<ul style="list-style-type: none"> <li>- Everything is designed to stop costly wasted flexo plate.</li> </ul>
Guaranteed	<ul style="list-style-type: none"> <li>- 5-year guarantee.</li> <li>- Hardwearing components for trouble-free use.</li> </ul>

## A Keencut dealer’s view:

What sectors is the Keencut Flexo Plate Cutter used in?

- Arts Printmaking
- Label Printing
- Flexible Packaging

What would be the main selling points?

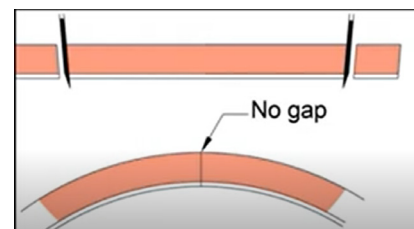

The main selling points is safety and accuracy compared to using a knife and ruler. Additionally, the ability to produce a bevel cut for gap-free plate mounting application to press.

“The Keencut Flexo Plate cutter is ideal for cutting any size flexo plate. It quickly and safely creates seamless joins for the perfect finish. We recommend Keencut everywhere we go!”

## Keencut customer views:

“We would estimate that each Flexo Plate Cutter saves us CAN\$400 / USD\$ 300.00 per month through reducing waste and errors” Andrew Miller of Pollard Banknote Limited (Canada & USA)

“The Keencut Flexo Plate Cutter is the safest, fastest and most accurate equipment for cutting and trimming photopolymer printing plates.” Echo Packaging, UK

Perfectly bevelled 5° undercut, for seamless “no gap” plate joins.
